NEWS

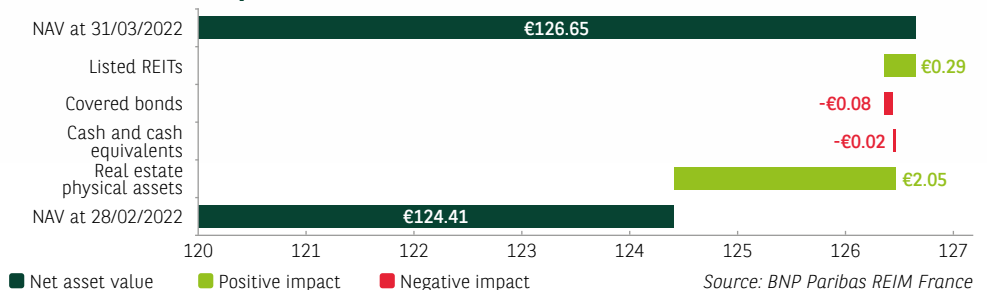

As at 31 March, the net asset value of BNP Paribas Diversipierre was €126.65 per share, up +1.80% over the month (i.e. €2.24 per share).

The performance of BNP Paribas Diversipierre, with reinvested dividend, since 1st January 2022 was therefore +0.78%. On 9 March, the asset Tribequa, which was acquired prior to its construction in 2019 and located in Bordeaux, was delivered. The building of ca. 10,500 sqm is at the heart of a 55,000 sqm mixed urban redevelopment project with a prime location 800 m from the main train station. The asset offers high-end services and has already been pre-let for 50% of the areas. The remaining areas being actively visited by potential tenants.

In addition, your OPCI went into exclusivity for the acquisition of a development project of a school located in Madrid (Spain). The building of approximately 5,700 sqm will be delivered in early 2024 and will be subject to a very long term lease. This acquisition aims to strengthen the diversification of the portfolio by consolidating the presence in Spain and investing in alternative assets linked to education.

Since the beginning of 2022, the context of raising interest rates in Europe has negatively affected the bonds owned by your OPCI. To address this situation, the exposition to this asset class has been reduced for the time being and the risk has been limited with hedging instruments.
