

DISCLAIMER

The SPPICAV owns real estate physical assets, directly and/or indirectly, requiring timescales for sale that will depend upon the state of the property market. If you submit a redemption request for your Shares, you may not receive payment until the end of a period of seven business days from the Redemption Clearance Deadline. The capital and the return are not guaranteed and depend on conditions in the property and financial markets. The amount you receive may be less than the amount that you invested, due to a decline in the value of the SPPICAV's assets, particularly those in the property market, over your investment term. The minimum recommended investment period is eight years.

NEWS

As of 31 March 2023, the net asset value of BNP Paribas Diversipierre stands at €114.33 per share down 3.43% over the month (or -€4.06 per share). The reinvested dividend performance of BNP Paribas Diversipierre since 1st January 2023 is therefore established at -2.69%. In March, your OPCI acquired the second building of the logistics platform located near Verona in Italy, with a total area of nearly 32,000 sqm. The asset is built to the latest market standards. It is located along a north-south axis from the Nordic countries to southern Italy via Germany. The first building of this asset was delivered and acquired last December. Your OPCI has also acquired an off plan logistics platform development project located in Donnelly (45), France. The 22,000 sqm asset is built to meet the needs of its tenant, an international food-processing company and its adjoining factory. The asset will be leased upon delivery in 2025 with a long-term lease. These acquisitions aim to strengthen the diversification of the real estate assets of your OPCI. Regarding the net asset value per share of your OPCI, the contributions over the period are illustrated in the graph below. The negative contribution of real estate physical assets is due to the further decline in the overall asset valuations of European Real Estate, following the first significant drop recorded in December 2022. The main reason for this drop is the significant increase in the costs of financing, partially offset by the indexation of rents.
